

Bitdefender GravityZone

UNCOVER AND STOP ELUSIVE THREATS WITH AGILITY AND PRECISION

GravityZone is a complete Endpoint Security solution designed from the ground up as an integrated next-gen EPP and easy-to-use EDR. It offers prevention, threat detection, automatic response, pre and post compromise visibility, alert triage, investigation, advanced search and one-click resolution capabilities.

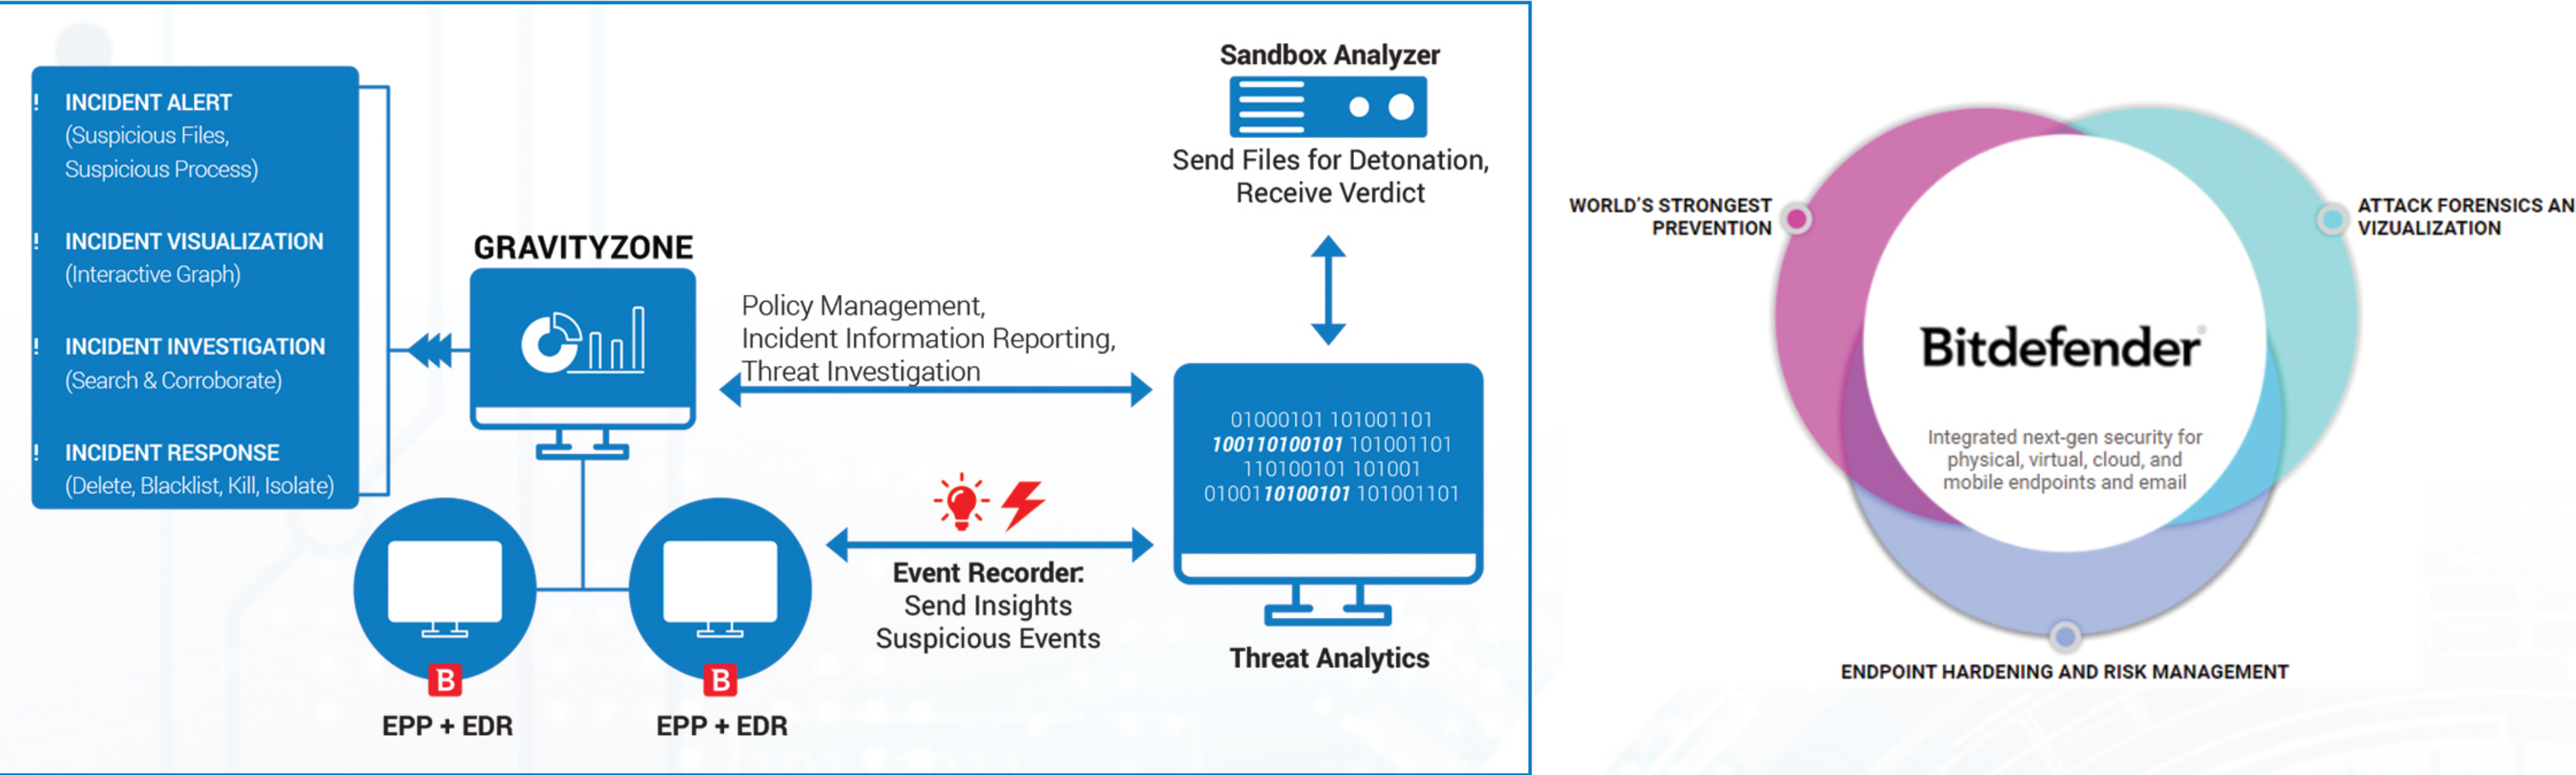

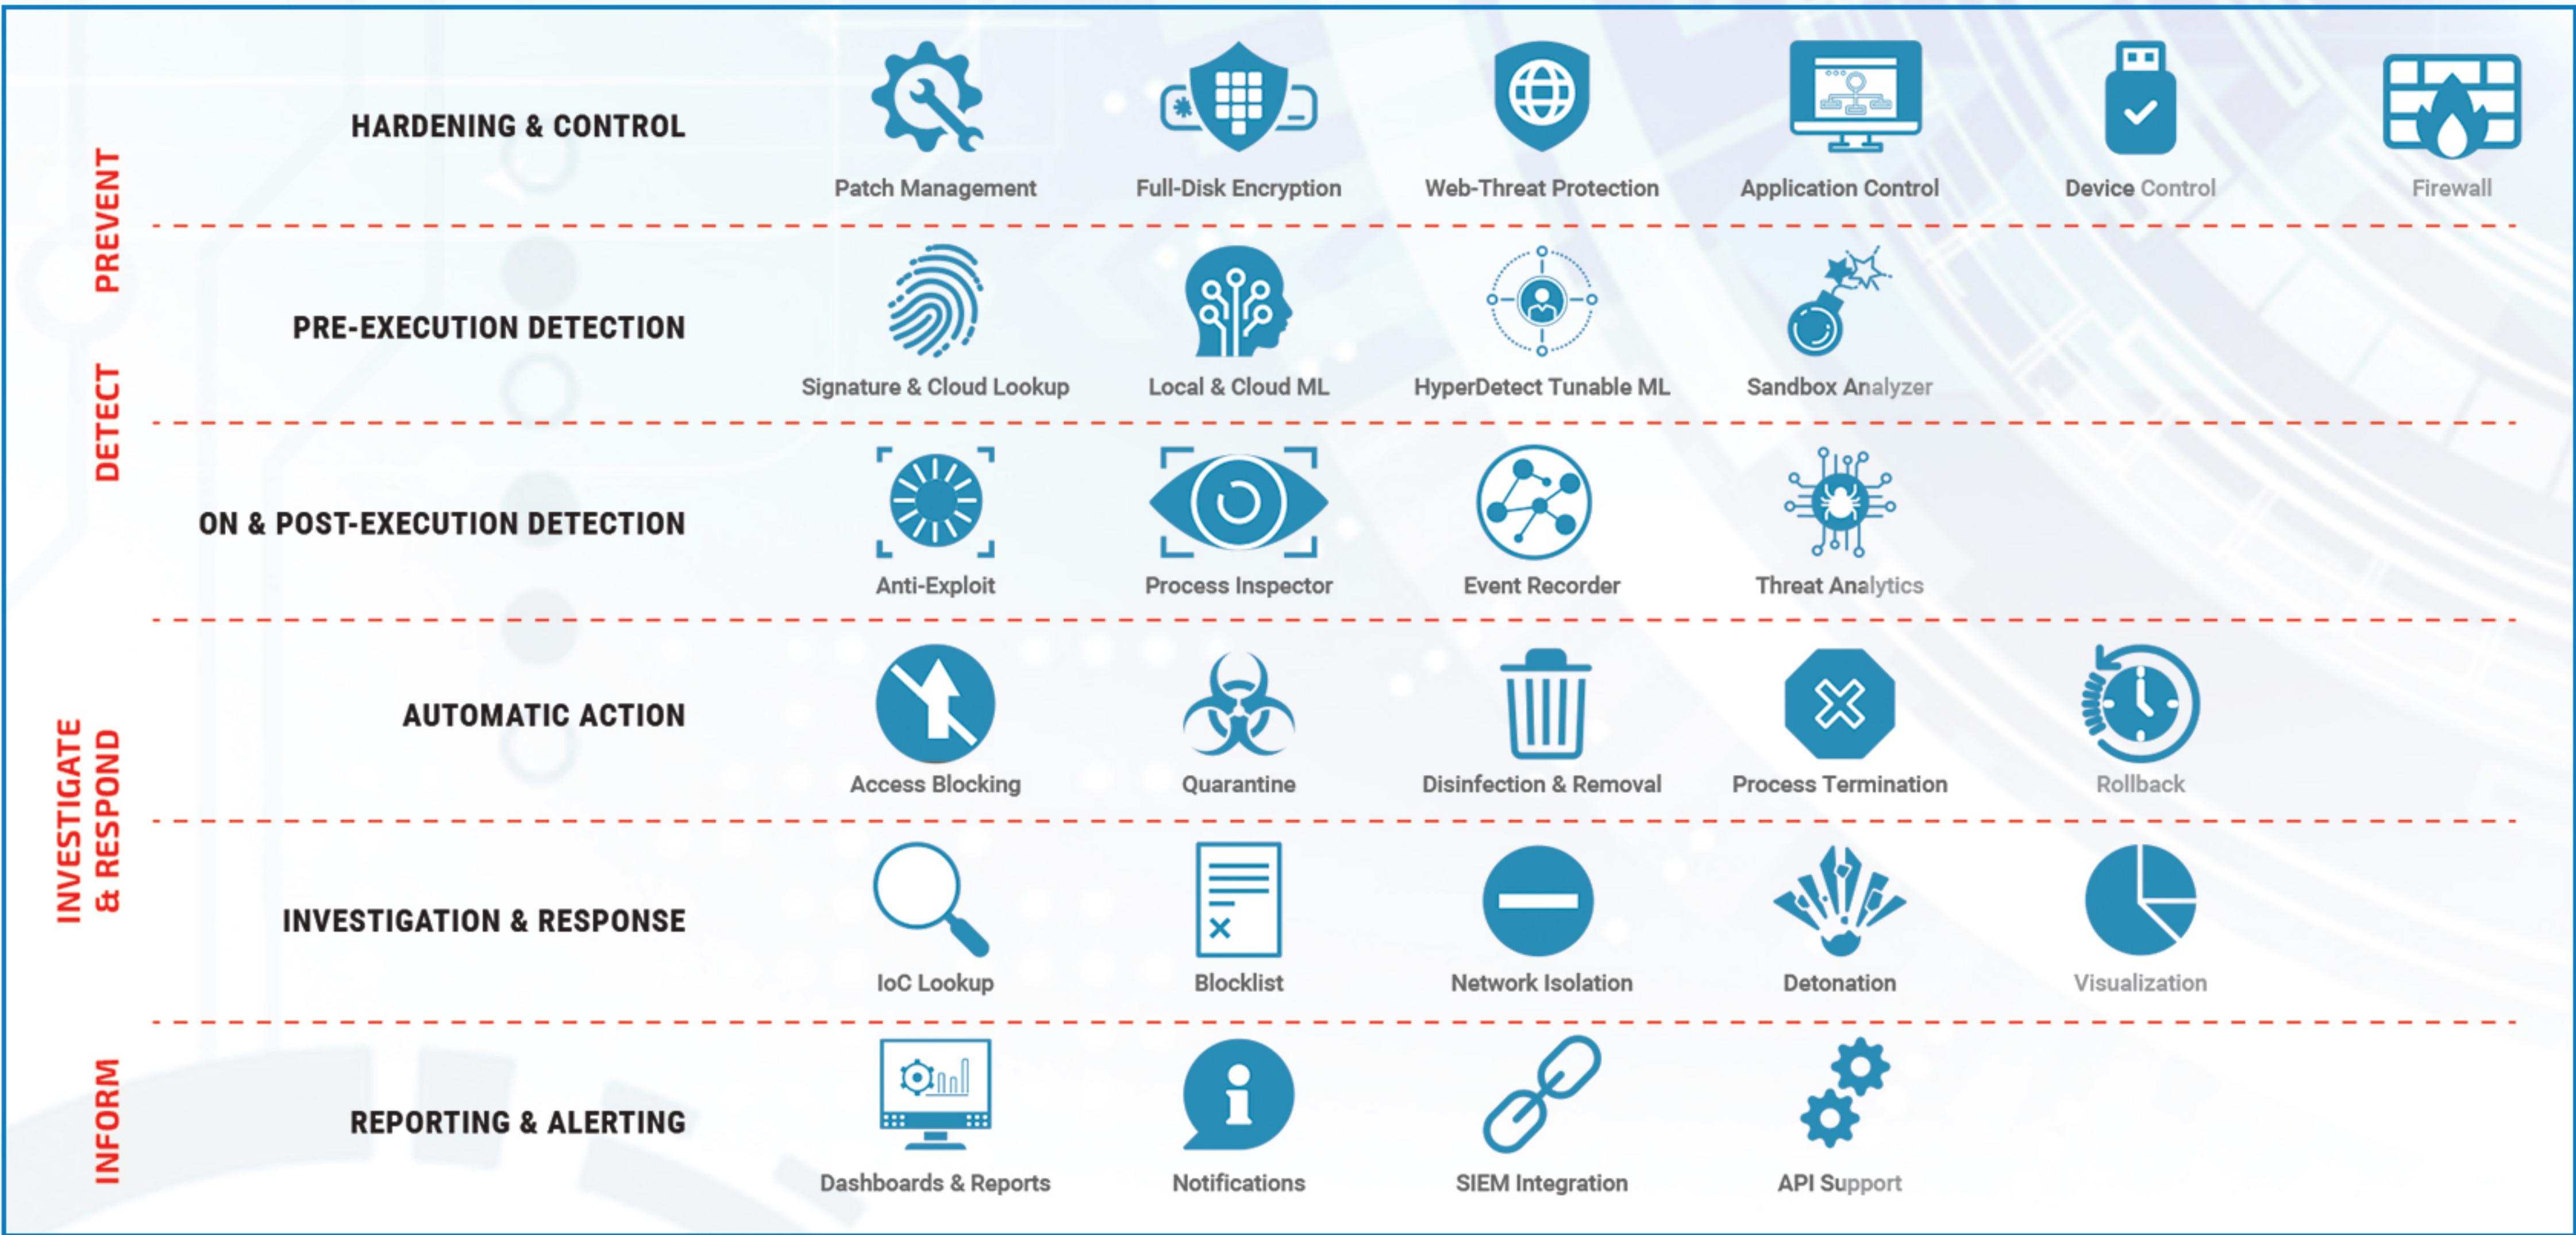

Figure 1. Bitdefender: prevention, detection and response in one agent, managed by the GravityZone console

Comprehensive endpoint security platform in one agent and console

GravityZone inherits all the hardening and next-generation prevention controls included in different bundles:

- ▶ Human Risk Analytics
- ▶ Machine Learning Predicts and Blocks Advanced Attacks
- ▶ HyperDetect™ Blocks File-less Attacks at Pre-execution
- ▶ Sandbox Analyzer Enhances Targeted Attack Detection
- ▶ Attack Forensics and Visualization
- ▶ Risk Management and Analytics
- ▶ Exploit defense safeguards memory
